# OD-Segregator: MSW and Dry Waste Segregation Line

**Resources Redefined:  
Today's Precision, Crafting Tomorrow's Solution!**

## Product Description

- Our tailored Segregation Line is designed for optimal recovery of waste based on two criteria :
  - Physical/Chemical characteristics of the input feed
  - Number of fractions required
- Suitable for MSW processing facilities using composting and biomethanation, materials recovery facilities, transfer stations and legacy waste reclamation projects.
- Offers capacity ranging from 1 to 10 tons per hour
- Operates seamlessly in varied weather conditions
