“Organic Recycling Systems Limited Announces Strategic Collaboration with SLPP Re-New LLP to Strengthen Membrane-Based CBG Solutions in India”

Navi Mumbai, February 26, 2026 : Organic Recycling Systems Limited (ORSL), a leading technology-driven waste valorisation and bioenergy company, has entered into a strategic Memorandum of Understanding (MoU) with **SLPP Re-New LLP** to jointly pursue opportunities in India’s rapidly growing Compressed Bio-Gas (CBG) sector.

The collaboration aims to integrate advanced membrane-based biogas purification systems with ORSL’s end-to-end Technology, Engineering, Procurement & Construction (TEPC) and Operations & Maintenance (O&M) capabilities, enabling the delivery of high-efficiency, scalable bioenergy projects across the country.

Under the MoU, SLPP Re-New LLP will be positioned as the preferred partner for membrane-based biogas purification technologies, while ORSL will lead project execution, technology integration, and lifecycle management of CBG facilities. The partnership intends to jointly bid for government and private sector projects, offering integrated solutions aligned with India’s clean energy transition and waste-to-fuel initiatives.

Speaking on the collaboration, Mr. Pankaj Tanwar CEO Bioenergy stated

“This strategic association strengthens ORSL’s commitment to delivering technologically advanced and reliable CBG solutions. By combining SLPP’s specialized membrane expertise with ORSL’s execution and operational capabilities, we aim to accelerate deployment of sustainable bioenergy infrastructure in India.”

Mr .N.S. Mohan, Designated Partner, SLPP Re-New LLP, added:
“Partnering with ORSL enables us to bring advanced purification solutions to a wider market. Together, we look forward to delivering integrated projects that enhance efficiency, scalability, and long-term performance of biogas facilities.”

This partnership reflects ORSL’s continued focus on building strategic alliances to expand its technology portfolio, strengthen EPC capabilities, and support India’s transition toward circular bioeconomy solutions.

About Organic Recycling Systems Limited (ORSL)

Organic Recycling Systems Limited (ORSL) is a pioneering environmental engineering company specializing in sustainable waste management and valorisation solutions. Established in 2008 by technocrats, ORSL develops and deploys robust, cost-effective, and eco-friendly technologies across the entire waste value chain.

The company’s operations span three strategic business verticals:

- **Project Development & Technology Licensing** – Delivering turnkey projects and technology solutions for waste valorisation.
- **Product Vertical** – Offering a growing portfolio of bio-based products such as CBG, organic manure etc. that support sustainable energy and agriculture.
- **Consulting Vertical** – Providing specialized advisory services in environmental strategy, waste management, and regulatory compliance.
- **O&M vertical** : Provide troubleshooting and complete operation and maintenance services for CBG based as well waste processing facilities.

Recognized under the Swachh Bharat Mission for operational excellence and innovation, ORSL is actively pursuing EPC (Engineering, Procurement, and Construction) opportunities nationwide.

ORSL’s research and innovation efforts are reinforced through collaborations with esteemed institutions such as **IIT Mumbai (IITB), IIT Kharagpur, IIT BHU, IIT Roorkee, University of Birmingham (UOB)**, and other technical partners. These partnerships continue to drive the company’s intellectual property development and technological advancements in the environmental sector.
